

# EU AI Act Audit Report

Generated: 2026-02-20T10:49:27.363278Z

## Overall Compliance Assessment

**Verdict:** AUDIT-READY (WITH CONDITIONS)

**Overall Compliance:** 96.4%

## Summary

Passed: 8   Warnings (Missing / Partial): 1   Failed: 1

## Required EU AI Act Artifacts

Overall artifact compliance: **100.0%**

**All required artifacts are present.**

## Findings

| Rule                                                                          | Clause            | Severity | Status  | Confidence | Risk   | Evidence & Remediation                                                                                                                                                                                                                                                                                                                               |

## Why This System Is Not Compliant

### Rules indicating non-compliance:

- Training, validation and testing data governance

## Scope & Limitations

This assessment does **NOT** validate the following unless explicit supporting artifacts were provided:

- Model performance, accuracy, or benchmarking claims
- Bias, fairness, or discrimination metrics
- Dataset representativeness or sampling validity
- Legal enforceability of internal policies
- Operational effectiveness of governance controls

## Disclaimer

This automated assessment is advisory and based on artifacts available at scan time. It does not constitute legal advice.
